

Sponsor a Design Project

The Oregon Main Street Model includes helping with design elements and projects in Downtown!

So far, the City of Stayton has showed their support for RDS and our endeavors with an annual grant of \$5,000 to fund design projects, with which we have done things like install the new parklet, get benches for downtown, put up way-finding signs and street sign toppers in downtown and more!

This is a sponsorship that's available at all levels- please let RDS know if you're interested in helping sponsor a design project, and we'll recognize your contribution toward a particular project!
